

KANCHARLA TRIDEV SANJAY

Software Engineer — Full Stack Developer — Java — Python — React.js — Node.js

📍 Chennai, Tamil Nadu, India 📞 +91 9949128732
✉ tridevsanjay06@gmail.com  [LinkedIn](#)  [GitHub](#)

PROFESSIONAL SUMMARY

Recent B.Tech graduate in Artificial Intelligence and Machine Learning with strong foundations in Software Engineering, Full Stack Development, Object-Oriented Programming, Data Structures, Algorithms, DBMS, and Web Technologies. Hands-on experience developing scalable applications using Java, Python, React.js, Node.js, JavaScript, HTML, CSS, SQL, and REST APIs. Experienced in backend development, frontend integration, database management, Agile methodologies, and Git-based collaborative development. Passionate about building software solutions that improve healthcare and business outcomes.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, JavaScript

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MySQL, PostgreSQL, MongoDB

Software Engineering: OOP, Data Structures, Algorithms, DBMS, Operating Systems, SDLC, Agile

Tools: Git, GitHub, Postman, Docker, GitHub Copilot

Cloud: Google Cloud Platform (GCP), AWS Fundamentals

Additional: Machine Learning, NLP, LLM Applications

EXPERIENCE

Backend Developer Intern – Hewlett Packard Enterprise (HPE)

2025

- Developed backend services and REST APIs supporting enterprise software applications.
- Worked with SQL databases for data storage, querying, and application integration.
- Applied Object-Oriented Programming principles to develop maintainable and scalable solutions.
- Participated in debugging, testing, code reviews, and software quality improvement activities.
- Utilized Git and GitHub for version control and collaborative development workflows.
- Contributed within Agile teams through sprint planning, daily stand-ups, and iterative development.

PROJECTS

VideoForge AI [\[Live Demo\]](#)

Python, FastAPI, React.js, JavaScript, MongoDB, REST APIs

- Developed a full-stack web application that transforms product documents into structured video scripts and storyboards.
- Built RESTful APIs using FastAPI and integrated frontend workflows with backend services.
- Designed responsive user interfaces using React.js, HTML, CSS, and JavaScript.
- Implemented scalable architecture and database integration for efficient content processing.
- Utilized Git-based workflows and modular software engineering practices.

AccidentAid AI – Intelligent Emergency Healthcare Assistance System

Python, React.js, Node.js, MongoDB, REST APIs

- Developed a healthcare-focused full-stack application supporting emergency response assistance.
- Built frontend interfaces using React.js and backend services using Node.js.
- Designed REST APIs enabling communication between application components.
- Integrated MongoDB databases for secure storage and retrieval of healthcare information.
- Applied OOP concepts and software engineering best practices throughout development.

AI-Powered Carbon Footprint Calculator

Python, Scikit-learn, React.js, MongoDB

- Developed a predictive analytics application achieving 85% model accuracy.
- Performed data preprocessing, feature engineering, model training, and evaluation.
- Integrated machine learning models into web applications through API-based architecture.
- Delivered real-time sustainability insights using data-driven software solutions.

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology

2026

Bachelor of Technology (B.Tech) in Artificial Intelligence & Machine Learning

CGPA: 8.0/10

CERTIFICATIONS

- Artificial Intelligence Professional Certification – OneRoadmap
- Generative AI Certification – Infosys Springboard
- AWS Solutions Architecture Job Simulation – Forage
- HPE Software Engineering Virtual Experience Program
- Google Cloud Fundamentals
